

# **2021 Reset Instructions**

# **2021 RESET OVERVIEW**

- 1) Before beginning the reset, make sure the current modular non-working displays are 100% set. If any non-working displays are missing, work with your store manager to order through GNFR
- Locate all new HART & HyperTough non-working displays for the 2021 Reset. These will ship to stores in individual boxes. Each box should contain:
  - Non-Working Display
  - Tool Fixture/Cradle
  - Security Cable
  - (2) Locking Nuts & (1) Hex Key
  - Fact Tag

## New Non-Working Displays for 2021

- HART 3/8" Ratchet Kit
- HART ½" Impact Wrench Kit
- HART High Performance Reciprocating Saw
- HyperTough 20V RO Sander
- HyperTough 20V Jigsaw
- Dremel 7350
- All new HyperTough tools will be replaced with new updated color, brand language

## **Exiting Non-Working Displays for 2021**

- HART Radio
- HART Inflator
- HART Hand Vacuum
- HART Brushless 1/2" Drill in select stores
- HART Brushless Impact Driver in select stores
- HART Multi-Tool in select stores
- HyperTough Ni-Cad Drill
- Dremel 7300

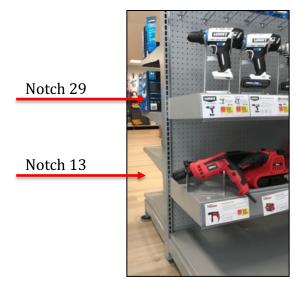

Take all old displays to the claims desk

Reference each store specific MOD trait to confirm new displays **\*\*These changes will apply to the majority of stores** 

1) Use a 3/8" nut driver to remove the locking nut holding the security cable to the fixture underneath each shelf. Note: not all drills in section 1 will need to be moved, so review the MOD before unsecuring from the shelf.

2) Confirm all the shelves are at the correct height. If not adjust the shelves to the notches as shown below:

The top display shelf will be placed 29 notches from the base deck.

If your store requires a bottom display shelf, it should be placed 13 notches above base deck.

NOTE: The first open notch above the base deck is 1.

- 3) Rotary tools will move from section 3 to section 1.
- 4) The following display tools & fixtures will need to be removed permanently from the MOD (take these items to the claims desk)
  - HR Brushless Drill/Impact in select stores
  - HR Brushless Impact Driver in select stores
  - HR Multi-Tool in select stores
  - HR 20V Radio
  - HR 20V Inflator
  - HR 20V Hand Vacuum
  - HT 18V Ni-Cad
  - Dremel 7300
  - All HyperTough Displays
- 5) Work section by section to re-arrange display placement, adding in new non-working displays as needed (see the following pages). All cradles should be oriented so that the left stem is placed on the top row of holes. Reference image is below
- 6) Hold onto tool cradles until MOD reset is complete

- 8) Once all displays have been moved, secure fixtures back to the shelf using a 3/8" nut driver.
- 9) Place fact tags under each corresponding display along with price label.

Instructions for additional mod traits can be found :

www.TTIstoresetup.com

## **Right Sided Modulars:**

If you store has a right sided MOD, if you are looking at the Aisle, section 1 begins on the far left, away from Action Alley. Still work Left to Right, just from the inside of the Aisle towards Action Alley.
